

# Why choose Health @ YorkU?

Kinesiology & Health Science | Psychology | Nursing | Global Health  
Health Studies (Management, Policy, Informatics, Health Studies)

health

# State-of-the-Art Labs and Facilities

# Real World Experience

# Great Student Experience

# Here's Why

**More course selections** in Health than any other university in Canada that offers students more breadth and depth for tremendous opportunity to tailor their degrees to suit their career interests.

**Award winning professors** who are internationally recognized experts in their fields, combined with state-of-the-art labs and facilities, means unparalleled excellence in education.

**Leading edge, innovative programs**, including Global Health and the York-Seneca Rehabilitation program, available only at York, plus industry recognized certificates in Kinesiology & Health Science and in Health Policy and Management.

**Hands on, experiential education opportunities** in all of our degree programs, both on campus in our labs and with local and international community partners that provide real world experience to complement your in-class courses.

**Medical and professional prerequisites.** All the prerequisite courses you need for medical school and for other professional health schools including dentistry, pharmacy, physiotherapy, occupational therapy, chiropractic, optometry and more.

**A great student experience** where all students have access to peer mentoring and academic advising in a supportive environment, as well as student clubs affiliated with all of our degree programs to meet new friends and make contacts.

**More scholarships.** All student applicants with grade point averages of 80 and above are automatically offered York entrance scholarships plus a \$500 Student Life Award, and our various degree programs offer their own scholarships.
