

NURSING

AT YORK UNIVERSITY (BScN)

nurs.info.yorku.ca

York's School of Nursing focuses on the theoretical, scientific and philosophical knowledge of human caring. The innovative person-centric approach to teaching at York develops the future leaders of Canada's health care system.

- ✓ Nursing Simulation Centre and Nursing Skills Lab provide hands-on experience
- ✓ Computer Simulation Lab helps students develop clinical decision-making and critical thinking skills through interactive computer simulation exercises
- ✓ All students receive practicum placements for real world experience
- ✓ Scholarships available in all BScN degree options
